AIRIMP-CARGO

I. INTRODUCTION AND POLICY

In recognition of the need to handle cargo reservations transactions between themselves in an efficient and economical manner, the member airlines of the Air Traffic Conference of America and the International Air Transport Association developed the ATC/IATA Reservations Interline Message Procedures–Cargo (AIRIMP–CARGO) which include both message composition procedures and the abbreviations used therein. Use of the cargo procedures by an airline or Cargo Agent assures accuracy, understanding and economy. Messages composed in the AIRIMP–CARGO will be accepted by those airlines marked with an (*) in Section XI and the airlines offering reserved air cargo service are also specifically indicated in that section. Messages composed in plain language will conform to the construction specifications outlined herein. In the interest of all member airlines, the use of plain language messages should be limited to the maximum extent possible.

II. FORMULAS FOR REQUESTING AND CANCELLING ANOTHER MEMBER'S SPACE

(A) Formula for REQUESTING Another Member's Space–Analyse routing by individual portions (consecutive segments over one Member) bearing in mind that: . . . on interchange flights the Member operating from the originating or transfer point is considered the carrying Member and then apply the following rules in the order listed to each individual portion until you come to the rule that fits:

NOTE–IATA EXCEPTION

IATA Members may, by agreement with other IATA Members:

–Consider all portions over one Member as a single portion; or

–Consider individual segments on the same Member as portions.

(1) **GO TO LOCAL OFFICE**–If a carrying Member maintains a cargo office in your city, request that Member to clear its own portion.

EXCEPTION: If the requested space is known not to be covered by the availability maintained by the carrying Member's local office and Rule No. 2 can be applied, the requesting Member may omit Rule No. 1 and use Rule No. 2.

(2) **TO TO TRANSFER CITY**–If a carrying Member's portion BEGINS AT A CITY ALSO SERVED BY YOUR COMPANY, request that city to clear that Member's portion.

NOTICE

If Exception under Rule No. 1 was chosen only to find Rule No. 2 cannot be applied, Rule No. 1 must be used. Do not attempt to use any subsequent rules.

(3) **GO TO OTHER COMMON CITY**–If a carrying Member's portion BEGINS AT A CITY NOT SERVED BY YOUR COMPANY, and your office can communicate with the carrying Member at a city where you both maintain cargo offices, request that Member's portion through said office(s).

(4) **GO IN OTHER CASES TO**–Whenever a portion cannot be cleared by applying Rules (1), (2) or (3) above:

(a) Request first preceding Member with whom you have contact to clear that portion.

(b) When there is no preceding Member (shipment will originate in another city) request closest logical on-line cargo office of any carrying Member to clear that portion.

(B) Supplementary Rules to Formula for Requesting Another Member's Space

(1) Indicate on local records by use of city/carrier codes the offices which you direct to clear the portions involved in the routing pursuant to the above formula.

(2) When there is continuing portion(s) beyond the portion being actioned, you must notify the Member whose portion is being requested of the next continuing portion being handled through some other office.

(C) Formula for CANCELLING Another Member's Space

Expedite cancellation of another Member's space in accordance with the following rules:

(1) If your office initiated request for space, direct cancellation advice to office(s) from which space was requested.

(2) If your office did not initiate request for space, apply these rules in the following order to each individual portion subject to cancellation action until you come to the rule that fits:

(a) **GO TO LOCAL OFFICE**–If a carrying Member maintains a cargo office in your city, advise that Member to cancel its own portion.

(b) **GO TO TRANSFER CITY**–If a carrying Member's portion begins at a city also served by your company, advise that city to cancel that Member's portion.

(c) **TO TO OTHER COMMON CITY**–If a carrying Member's portion begins at a city not served by your company, and your office can communicate with the carrying Member at a city where you both maintain cargo offices, cancel that Member's portion through said office(s).

(d) **GO IN OTHER CASES TO**–Whenever a portion cannot be cancelled by applying rules (a), (b) and (c) above:

(i) Advise first preceding Member with whom you have contact to cancel that portion.

(ii) When there is no preceding Member (shipment will originate in another city), advise closest logical on-line cargo office of any carrying Member to cancel that portion.

(3) Specify each segment of space to be cancelled.

III. ADDRESS AND SIGNATURE PROCEDURE

(A) ADDRESS–If message will be transmitted via:

. . . your communications facilities, use address prescribed by your company.

. . . commercial facilities, address message to name or telegraphic address of airline followed by "CARGO RESERVATIONS".

(B) SIGNATURE–If message will be transmitted via:

. . . your communications facilities, use signature prescribed by your company.

. . . commercial facilities, sign message by your corporate name (airline or Cargo Agent), followed where necessary to provide for proper routing of reply by department, location and/or surname of employee originating message. If cable "signature-address" is available, use it.

IV. TEXT OF RESERVATIONS MESSAGE

The message composition procedures and abbreviations used therein are located in the following Sections:

V. Basic Elements of Cargo Reservations Message

VI. Examples of Request Messages

VII. Examples and Rules Governing Reply Messages

VIII. Examples and Rules Governing Cancellation Messages

IX. Sell and Report Space Availability Status Messages

X. Advance Arrangements

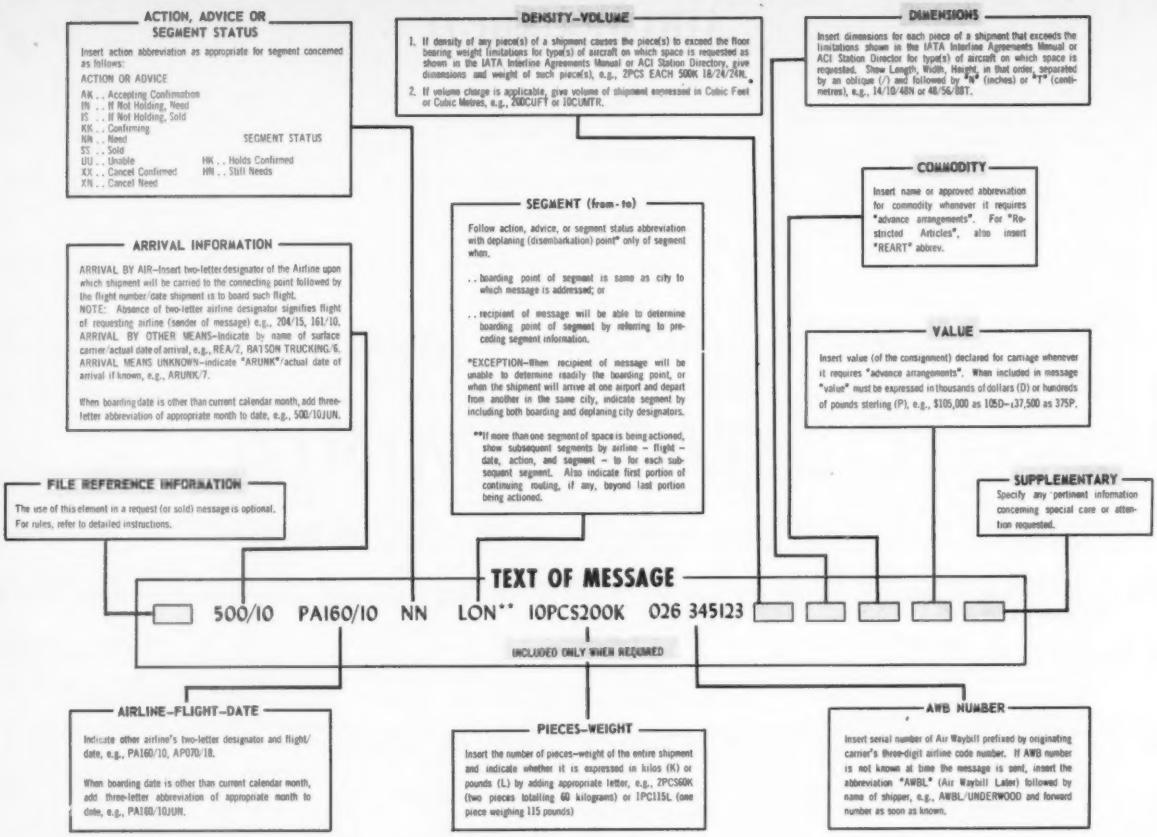
XI. Abbreviation Lists–(A) Cargo Reservations Abbreviations; (B) Months (C) Scheduled Air Transport Lines (including two-letter Reservations Designato and Official Carrier Abbreviations).

IMPORTANT

Transmission of non-essential information is costly as it either places an unnecessary burden on expensive company leased wire communications facilities or produces high commercial charges.

In an effort to attain maximum economy, please transmit essential information only.

UMI



V. BASIC ELEMENTS OF CARGO RESERVATIONS MESSAGE

Except as otherwise noted, when preparing cargo reservations message, whether it be request, sold, cancellation, etc., include following basic elements in order indicated.

FILE REFERENCE INFORMATION

(For optional use based on filing requirements of a Member airline)

In order to ensure location of the shipment's record upon receipt of a reply to a request message, the office requesting space may indicate as the first element of the request message reference to the location of its file. Further, such file reference must be recorded by the office receiving the request (or sold) message and included as the first element of any subsequent message to the office from whom the request (or sold) message was received.

ARRIVAL INFORMATION

As first element of message (except cancellation message) indicate pertinent arrival information, as follows:

(A) ARRIVAL BY AIR–Indicate delivering airline's two-letter designator followed by flight and date shipment will board said flight, "AFO76/15." In addition:

(1) If shipment will arrive via requesting airline's flight, the two-letter airline designator need not be included because signature of message identifies airline concerned.

(2) If boarding point of delivery flight will be other than point from which request originates, follow flight/date with boarding city information by use of "BD . . ." (boarding) and include therein city designator of boarding city. "093/21 BDMAD" because Air France/Paris is requesting office and Madrid is city at which shipment will board 093/21.

(3) When boarding date is other than current calendar month, add three-letter abbreviation of appropriate month to date. "AF076/14JUN."

(4) Whenever receiving airline will be unable to determine scheduled departure and/or arrival time of delivering flight by referring to current "GUIDE", specify both departure time from boarding point and arrival time of the delivering flight at the interline point. "4/6MAY 2130/0228" (Time must be specified in twenty-four hour clock).

Responsibility When Arrival Date Will Be Other Than Boarding Date

When the arrival date of the delivering flight will be other than the boarding date (because the flight changes date while en route) it is the responsibility of the receiving airline to convert the date change but continue to deal with the delivering airline in terms of the actual boarding date . . . not the converted arrival date.

(B) ARRIVAL BY OTHER MEANS–Indicate by name of surface carrier/actual date of arrival, e.g., REA/2, BATSON TRUCKING/6.

(C) ARRIVAL BY MEANS UNKNOWN–Indicate "ARUNK" and add actual arrival date, if known, e.g., ARUNK/7.

SEGMENT INFORMATION

Follow arrival information with pertinent segment information in order indicated:

(A) AIRLINE and FLIGHT-DATE–Indicate other airline's two-letter designator and flight/date.*

*Specify date on which shipment is to board requested flight including month when boarding date is other than current calendar month. *Example:* If in November a request is made for space in any other month, follow flight/date with appropriate month. "BA401/6DEC."

(B) ACTION or ADVICE or SEGMENT STATUS

(1) Action or Advice or Segment Status–Follow flight/date with appropriate abbreviation

SS – **Sold . . .** we have sold segment specified record sales accordingly.

IS – **If Not Holding, Sold . . .** shipment may already be reserved for segment specified, so look out for duplicate reservation . . . nevertheless, we have sold segment . . . record sale accordingly.

UMI

NN – **Need . . .** segment specified is needed for shipment . . . please reserve and confirm if available, or unable if not available.

IN – **If Not Holding, Need . . .** shipment may already be reserved for segment specified. If not holding, reserve and confirm if available, or unable if not available.

KK – **Confirming . . .** segment specified has been reserved.

AK – **Accepting Confirmation . . .** alternate space confirmed by you is acceptable to shipper.

UU – **Unable . . .** segment specified is not available.

XX – **Cancel Confirmed . . .** cancel confirmed segment specified.

XN – **Cancel Need . . .** no reply received to need advice . . . but cancel segment specified even if it has been or now can be confirmed.

HK – **Holds Confirmed . . .** our record indicates shipment reserved for segment specified . . . make record but take no other action*.

HN – **Still Needs . . .** our record indicates no reply received to need advice . . . make record but take no other action* until your office is in control of shipment . . . then, if still "HN", proceed to clear space by taking "IN" action.

Note: When your office initiates "RQRP" (request reply) message, use "NN" (Need) instead of "HN" (Still Needs).

***EXCEPTION:** As recipient of message, when any segment specified in message commences on YOUR LINE at YOUR CITY and you have "no record," immediately reserve said segment.

(C) SEGMENT(S) (FROM-TO)–Follow action, advice, or segment status abbreviation with deplaning (disembarkation) point* only of segment when:

(a) boarding point of segment is same as city to which message is addressed; or

(b) recipient of message will be able to determine boarding point of segment by referring to preceding segment information.

***EXCEPTION:** When recipient of message will be unable to determine readily the boarding point, or when the shipment will arrive at one airport and depart from another in the same city, indicate segment by including both boarding and deplaning city designators.

SUBSEQUENT SEGMENT(S)

When message involves more than one segment, follow first segment with subsequent segments in proper sequence and their component parts in order indicated above, except that a requesting airline need not prefix its own flight/date with its two-letter airline designator because signature of message identifies airline concerned. When there is continuing portion(s) beyond the portion being actioned, notify the Member whose portion is being requested of the next continuing portion being handled through some other office.

PIECE(S) – WEIGHT

Follow segment(s) information with number of pieces and weight of entire shipment (all pieces) and indicate whether expressed in kilograms or pounds by adding appropriate letter associated with unit of weight. "1PC60K" (one piece consisting of 60 kilograms) or "2PCS115L" (two pieces consisting of 115 pounds).

AIR WAYBILL NUMBER

Follow pieces - weight information with serial number of Air Waybill (prefixed by originating carrier's three-digit airline code number) associated with shipment to be actioned. If Air Waybill Number is not known at time message is sent, insert the abbreviation "AWBL" (Air Waybill Later) followed by name of shipper and forward number of Air Waybill as soon as known. "AWBL/UNDERWOOD."

DENSITY–VOLUME

Follow Air Waybill Number information with pertinent density - volume information as follows:

(A) When heavily concentrated (high density) shipments are offered and the density of any piece of such shipment causes it to exceed the floor loading limits for the type(s) of aircraft on which cargo space is being requested as shown in the IATA Interline Agreements or ACI Station Directory, give dimensions and weight of each such piece(s). "2PCS EACH 500K 18/24/24N" or "1PC320K 12/18/18N 2PCS EACH 500K 18/24/24N".

(B) If volume rather than weight charge is applicable to shipment (low density) in accordance with applicable tariff rules, specify volume of shipment expressed in Cubic Feet or Cubic Metres. "200CUFT" or "10CUMTR".

DIMENSIONS

Follow density - volume information with dimensions of each piece of a shipment that exceeds the limitations shown in the IATA Interline Agreements Manual or ACI Station Directory for type of aircraft on which space is requested. Show Length, Width, Height, in that order: spearated by an oblique (/) and follow by "N" (inches) or "T" (centimetres). "14/10/48N" or "28/56/88T".

COMMODITY

Follow dimensions information with the name or approved abbreviation of the commodity(s) in the shipment whenever it involves "advance arrangements" in accordance with the IATA Interline Agreements Manual or ACI Station Directory. In the case of "Restricted Articles", also insert "REART" (Restricted Article) abbreviation.

VALUE

Follow commodity information with the value which has been declared for carriage of the shipment whenever it requires "advance arrangements" in accordance with the IATA Interline Agreements Manual or ACI Station Directory. When "value is given, indicate in thousands of U.S. Dollars (D) or hundreds of U.K. Pounds Sterling e.g., 105D" ($105,000) or "375P" (£37,500).

SUPPLEMENTARY INFORMATION

Follow value information with pertinent information concerning special care or attention which the shipment may require en route or in transit. Use approved abbreviations wherever possible, or if none, spell out in plain English, e.g., "NNGRD" (arrange special guard for); "Load and Stow in upright position"; "NN Reoxygenation every 4 hours"; "NN Refrigeration"; "Load in Heated Compartment"; "NNSKID"; etc.

VI. EXAMPLES OF REQUEST MESSAGES

To facilitate understanding, refer to illustration when studying examples:

FILE REFERENCE INFORMATION			ARRIVAL INFORMATION
*			1
airline and flight date (including month*)			action or advice or segment status
2a			2b

segment(s) (from*-to)	SUBSEQUENT SEGMENT(S)	PIECES-WEIGHT	AWB NUMBER
2c	3*	4	5

DENSITY-VOLUME	DIMENSIONS	COMMODITY	VALUE
6*	7*	8*	9*

SUPPLE-MENTARY
10

*Only when applicable.

(A) "NEED" Message Involving One Segment

Assume Air France/Paris is requesting office:

(Message addressed to ALT-LONDON)

898/12	EI801/13	NN	DUB	1PC10K
1	2a	2b	2c	4

057 4198743
5

Meaning: "Departing our flight of the 12th from Paris . . . via ALT flight 801 of the 13th need space from London to Dublin for one piece shipment weighing 10 kilos with Air Waybill Number 057 4198743." ("LON" is left out because the message is addressed to London which is the transfer point.)

(B) "NEED" Message Involving Two Segments

Assume AA/Chicago is requesting office:

(Message addressed to PAA–Chicago since both AA and PAA have cargo offices in Chicago)

856/30	PA160/20CT	NN	LON
1	2a	2b	2c

BE06/4OCT	NN	ROM	8PCS1980K
2a	2b	2c	4

001 684219
5

Meaning: "Departing our flight of the 30th from Chicago . . . via PAA flight 160 of the 2nd October need space from New York to London . . . via BEA flight 06 of the 4th October need space from London to Rome for shipment consisting of 8 pieces and weighing 1,980 kilos with Air Waybill Number 001 684219." (There being no BEA cargo office in Chicago nor in any other city served by AA, the BEA space is requested through PAA's cargo office in Chicago as PAA is the first preceding carrier. As request is made on September 15th and requested segments are for October 2nd and October 4th, "OCT" is indicated to signify that boarding date is other than current calendar month.)

(C) Combination "SOLD" and "NEED" Message

Assume SABENA/Brussels is requesting office:

(Message addressed to KLM-Amsterdam)

142/3 KL104/4 SS AMS KL5/4 NN

1 2a 2b 2c 2a 2b

CPH 10PCS480K 082 324693 10CUMTR

2c 4 5 6

3PCS EACH 48/24/57N FLOWERS

7 8

3PCS LARGE STOW UPRIGHT

10

Meaning: "Departing our flight 142 of the 3rd from Nice . . . via KLM flight 104 of the 4th have sold space from Brussels in accordance with Sell and Report Agreement . . . via KLM flight 5 of the 4th need space to Copenhagen for flower shipment consisting of 10 pieces and weighing 480 kilos with Air Waybill Number 082 324693. Volume charge is applicable and volume of the shipment is 10 cubic metres. Three of the pieces exceed your dimensional limits; are 48 inches long, 24 inches wide and 57 inches high; and must be stowed upright." (Weight is not given in 7 because bulkiness of three of the pieces is the real problem.)

(D) "NEED" Message Involving Acceptable Alternate Information

Assume PAA/New York is requesting office:

(Message addressed to BEA–London)

160/30 BE32/2JUL OR FIRAV

1 2a

BE35/2JUL NN PAR 2PCS800K

2a 2b 2c 4

026 789462

5

IPC600K 36/24/18N IPC200K 48/36/57N

6

ELECTRONICS 124D

8 9

NN SKIDS FRAGILE LOAD/STOW UPRIGHT

10

Meaning: "Departing our flight 160 of the 30th June from New York . . . via BEA flight 32 of the 2nd July . . . or first available BEA flight 35 of the same date need space to Paris for electronics shipment consisting of 2 pieces weighing 800 kilos with Air Waybill Number 026 789462. One piece weighs 600 kilos and the other 200 kilos; both exceed your floor loading limits and measure 36 inches long, 24 inches wide and 18 inches high and 48 inches long, 36 inches wide and 57 inches high respectively. Value declared for carriage is $124,000 (U.S.) and shipment will require skids. It is of fragile nature and must be loaded and stowed upright in aircraft."

VII. EXAMPLES AND RULES GOVERNING REPLY MESSAGES

Use original request message for reply by crossing out all non-essential segment and supplementary information and inserting pertinent information so that resultant text will accurately convey your answer to request message, bearing in mind that in a reply message the boarding point of the segment need not be indicated as implied in Section V "Segment Information", paragraph (C). Rules are incorporated in following examples:

Confirming Space on Flight Subject to Schedule Change or New Flight

Whenever requesting (or selling) airline will be unable to determine scheduled departure and arrival times of your receiving and subsequent flights, on dates specified, by referring to "GUIDE", specify same immediately after segment information concerned. "TW902/3 KK ZRH 1330/1510" (Time must be specified in twenty-four hour clock).

(A) "CONFIRMATION" or "REFUSAL" of Space

(1) When requested space is available, merely replace each "NN" code with "KK" (confirm) and then transmit reply after crossing out non-essential information (if any). Here is reply to example under VI.(A):

(Reply message addressed to AF-Paris)

KK

898/12 E1801/13 ~~NN~~ DUB 1PC10K

057 4198743

Note: (1) Only change to request is "KK" replacing "NN".

(2) "898/12" is both departure out of requesting city (Paris) and arrival at next transfer point (London) and is included to assist requesting office to locate its record of transaction.

(2) When requested space is not available, except as otherwise noted, merely replace each "NN" code with "UU" (Unable) and then transmit reply after crossing out non-essential information (if any).

(Reply message addressed to AF-Paris)

UU

898/12 E1801/13 ~~NN~~ DUB 1PC10K

057 4198743

Note: Only change to request is "UU" replacing "NN".

(B) "CONFIRMING" Alternate Space

To confirm alternate when requested space is not available, follow "UU" with alternate flight/date and proceed accordingly. Here is reply to example under VI.(D):

(Reply message addressed to PAA–New York)

UU

160/30 BE32/2JUL ~~OR FIRAV~~

KK

BE35/2JUL ~~NN~~ PAR 2PCS800K 026 789462 ~~IPC600K 36/24/18N IPC200K 48/36/57N ELECTRONICS 124D NN SKIDS FRAGILE LOAD/STOW UPRIGHT~~

ATTENTION: It is the responsibility of the requesting office to cancel alternate space immediately if it is not acceptable to the shipper. When deemed appropriate, "ADVAC" (advise acceptance) followed by the date and time by which acceptance must be received will be included in the message and the requesting office must either cancel or advise acceptance, by the date and time specified by use of the code "AK" (accepting confirmation). "SK566/8 AK STO."

(C) Reply Including "ADVISE IF DUPLICATE BOOKING"

When request for space is received which appears to duplicate reservation already held, confirm (or unable) space in accordance with Section VII.(A) above and include at end of message "ADV IF DUPE" followed by pertinent information, such as: name of airline which requested original reservation as well as arrival information.

(Reply message addressed to AF–Brussels)

KK

898/11 E1801/13 ~~NN~~ DUB 1PC10K 057

4198743 ADVISE IF DUPE WITH ARV

898/12 AWBL REQUESTED AFPAR.

(D) "RQRP" Message

When "requesting reply" message is warranted, precede arrival information (first element of message) with "RQRP" and continue to use cation code "NN" or "IN" rather than "HN".

VIII. EXAMPLE AND RULES GOVERNING CANCELLATION MESSAGES

Cancelling Complete Remaining Routing

Compose message by conforming to same pattern established for request message with following exceptions:

(1) Do not indicate arrival information because it is normally non-essential to completion of cancellation action.

(2) Replace "NN" code with appropriate cancellation code:

XX–Cancel Confirmed
IX–If Holding, Cancel
XN–Cancel Need

(3) Indicate each segment of space to be cancelled.

(Message addressed to EAL–New York)

EA701/13 XX DCA AA69/13 XX CHI UA90/14 X DEN 8PCS1980K 001 68429

Meaning: "Via EAL flight 701 of the 13th to Washington . . . via AA flight 69 of the 13th to Chicago . . . via UAL flight 90 of the 14th to Denver cancel reserved cargo space for eight piece shipment weighing 1,980 kilos reserved under Air Waybill Number 001 68429."

UMI

IX. SELL AND REPORT SPACE AVAILABILITY STATUS MESSAGES

In accordacne with interline agreements in effect with other member airlines, notify concerned airlines of space availability status information, as follows:

(A) **FLIGHT/DATE**
Specify flight/date* to which status information is applicable. Follow by abbreviation "RAC" (Reserved Air Cargo) to identify status advice as pertaining to **Cargo Space Availability.** *When date is other than current calendar month add abbreviation for month to date.

(B) **STATUS**
AS–Flight Open or Re-opened for Automatic Selling . . . subject to provisions of Sell and Report Agreement.
CR–Flight Closed But Request . . . stop selling flight/segment(s) specified . . . space is still available on request basis.
CC–Flight Closes . . . stop selling flight/segments specified . . . do not forward requests.

(C) **LEG(S)**
To control all sales over a leg or legs, name the leg(s) affected by stating the two points bounding the leg(s).

(1) When a single leg or isolated single legs are to be named, the second point on each leg may be omitted. The status code shall be repeated before each leg.

EXAMPLE: (1) On flight STO-CPH-FRA-ROM-CCU-MNL-TYO it is desired to stop all sales over the leg FRAROM: 970/11JUL RAC CR FRAROM; or 970/11JUL RAC CR FRA.

EXAMPLE: (2) On the same flight it is desired to stop all sales over the legs FRAROM and MNLTYO in a single message; 970/11JUL RAC CR FRAROM CR MNLTYO; or 970/11JUL RAC CR FRA CR MNL.

(2) When two or more consecutive legs are to be named, condense the message by naming only the first point of the leg and the second point of the last leg.

EXAMPLE: On the same flight it is desired to stop all sales over the legs FRAROM ROMCCU CCUMNL MNLTYO in a single message: 970/11JUL RAC CR FRATYO.

(3) When all legs on a flight are to be named, condense the message by giving only the flight/date and status.

EXAMPLE: On the same flight, it is desired to stop sales over all legs in a single message: 970/11JUL RAC CR.

(D) LIMIT SALES (Between Cities)

(1) To control sales between two or more cities without affecting sales into or beyond those cities, indicate flight status by prefixing appropriate flight status abbreviation by "LS" (Limit Sales) and follow with the leg(s) or segment(s) involved. "LS CR FRAROM." Limit Sales means that:

(a) No sales permitted between points within the "LS . . ." segment(s).

(b) Under such restricted status you may sell from any point preceding the restricted leg(s) or segment(s) to any point within or beyond the restricted leg(s) or segment(s).

(c) You may sell from any point within restricted segment(s) to any point beyond "LS . . ." segment(s).

(2) It is desired to limit sales between FRA and ROM (one leg).

EXAMPLE: 970/11JUL RAC LS . . . FRAROM.

(3) It is desired to limit sales between FRA and MNL (one segment).

EXAMPLE: 970/11JUL RAC LS . . . FRAMNL.

(4) It is desired to limit sales between FRA and ROM and CCU and MNL (two isolated legs).

EXAMPLE: 970/11JUL RAC LS . . . FRAROM LS . . . CCUMNL.

(5) It is desired to limit sales between STO and FRA and CCU and TYO (two isolated segments).

EXAMPLE: 970/11JUL RAC LS . . . STOFRA LS . . . CCUTYO.

(E) LIMIT SALES (Into and/or Out of City(s))

(1) To control all sales into or out of one city without affecting sales through the city, prefix the status code with "LS" followed by "in" or "out" as applicable and the 3-letter designator of the city(s) to be restricted.

EXAMPLE: (1) 970/11JUL RAC LS . . . . IN FRA
(2) 970/11JUL RAC LS . . . OUT FRA

(2) If all sales in and out of density (but not through) are to be restricted, prefix status abbreviation with "LS" and follow by 3-letter city designator of the city into and out of which the restriction applies.

EXAMPLE: 970/11JUL RAC LSCC IN OUT FRA

X. ADVANCE ARRANGEMENTS

(A) Where Reservations Involved

When shipment requiring "advance arrangements" is to be handled on reserved basis, normal AIRIMP–CARGO reservations message procedures will be applied.

(B) Where Reservations Not Involved

When shipment requiring "advance arrangements" is to be handled on an unreserved basis, insert as first or second element of message (as appropriate) abbreviation "URAC" (unreserved air cargo) followed by estimated date of arrival at transfer point. This is to be followed by "AAREQ" (advance arrangements **required**) followed by approximate date shipment expected to be carried from transfer point. Insert other self-explanatory elements of message as shown in example below. Insert "ADVAC" (advise acceptance) as last element of message.

Assume KLM/Amsterdam is requesting "advance arrangements" for unreserved (any flight) cargo:

(Message addressed KLM-New York)

URAC/13 AAREQ/13 CHI 3PCS1500K
AWBL/KING HORSES WIAT NN RAMP
ADVAC

Meaning: "Unreserved air cargo estimated to arrive at New York on 13th for which advance arrangements are requested for the 14th on any flight to Chicago. Shipment consists of three horses weighing 1,500 kilos. Air Waybill Number not yet known but shipper is Mr. King. Shipment accompanied with livestock attendant and ramp needed for transfer."

(Reply message addressed to KLM–Amsterdam)

URAC/13 AAREQ/14 CHI 3PCS1500K
ACCEPTED/UA
AWBL/KING ~~HORSES WIAT NN RAMP ADVAC~~

Note: Carrier which is accepting the shipment is indicated by two-letter airline designator after word "ACCEPTED" as KLM/New York is the office replying.

XI. ABBREVIATION LISTS

When word or phrase is not covered by following list of miscellaneous abbreviations, use plain language to convey intelligence pertinent to transaction:

A) Cargo Reservations Abbreviations

(1) *Action or Advice or Segment Status Action or Advice

AK	...	Accepting
IN	...	If Not Holding, Need
IS	...	If Not Holding, Sold
KK	...	Confirming
NN	...	Need
SS	...	Sold
UU	...	Unable
XX	...	Cancel Confirmed
XN	...	Cancel Need

Segment Status

HK	...	Holds Confirmed
HN	...	Still Needs

(2) *Sell and Report Space Availability Status Abbreviations

AS	...	Flight Open or Re-opened for Automatic Selling
CR	...	Flight Closed but Request
CC	...	Flight Closed
LS	...	Limit Sales (to be followed by the applicable status abbreviation)

(3) Miscellaneous Abbreviations

The following **KEY Abbreviations** have the same meaning wherever found in the complete list of Miscellaneous Abbreviations:

AWB	Air Waybill
COD	Cash, or collect, on delivery
FWD	Forward (ed) (ing)
AD	Advise (ed) (ing)
CH	Charge
CN	Consignee
CT	Collect
DL	Deliver (ed) (er) (ery)

Advise delivery date and signature	ADDLS
Advise if you dispatched (forwarded) consignment	ADFWD
Advise reason for delay (to what delay is due)	ADDDU
Advise your handling record	ADHG
Air Waybill	AWB
Air Waybill later	AWBL
ARRIVE (ai) (ed) (ing)	AR
—advise arrival	ADAR
—arrival unknown (Add actual arrival date, if known, "ARUNK15")	ARUNK
—now arriving	NOWAR
Balance of space not requested	BNRQ
Board (ing) (followed by applicable city code)	BD---
Cash, or collect, on delivery (may be used with appropriate action abbreviation as necessary, e.g., XX COD, etc.)	COD
Centimetres	T
Change C.O.D. service charge to read	CCODCH
Change C.O.D. to read	CCOD
Change collect to prepaid	CCTPP
Change Consignee's address to read	CCNA
Change Consignee's name to read	CCNN
Change Consignee's name and address to read	CCNNA
Change prepaid to collect	CPPCT
Change volume	CVO
Change volume charge	CVOCH
Change weight	CWT
Change weight charge	CWTCH
Charges collect	CHCT
Charges prepaid	CHPP
Clarify	CFY
C.O.D. service charge	CODCH
Collect from consignee	CTCN
Collect from shipper	CTSH
Commercial invoice	COMIN
Consignee,	CN
Consignee notified (dashes for date)	CNAD---
Consignee notified but shipment not yet delivered (dashes for date)	CNAD--ND
Consignee refused to accept delivery	CNRDL
Consular invoice	CSRIN
Contact (ed) (ing)	CTC
Cubic Feet	CUFT
Cubic Metre	CUMTR
Delay account of	DDU
Deliver (ed) (ing); follow by date when appropriate, e.g., delivered on 14th "DL14"	DL---
Diplomatic Mail	DIPM
Dollars (U.S.)	D
Duplicate	DUPE
Estimated time of arrival	ETA
Estimated time of departure	ETD
Export licence	EXLIC
First available (When appropriate, follow with last flight acceptable to shipper)	FIRAV
Forward (ed) (ing); follow by date when appropriate, e.g., forwarded on 14th by "FWD14"	FWD---
Guard (Use appropriate action abbreviation as necessary, e.g., NN GRD, XX GRD, etc.)	GRD
If unable	IFUN
Import licence	IMLIC
inches	N
Kilos (dashes for number of)	--K
Manifested but not received	MANR
Missed connection, misconnect (ed)	MSCON
My telegram, teletype, telex, cable	MT
No connection	NOCON
No operate (ation) (ed)	NOOP
No record	NOREC
No show	NS
Offloaded (follow by reason for offload)	OFLD
Overcarried	OVCD
Perishable cargo	PERC
Piece(s) (First two dashes for number of piece(s); last dash for insertion of "$", where applicable)	---PC-
Pounds (dashes for number of)	--L
Pounds Sterling (U.K.)	P
Railway Express Agency	REA
Received but not manifested	RNMA
Reference (regarding)	RE
Reference your telegram, teletype, telex, cable	YT
Repeat (ed) (ing)	RPT
Requesting reply	RQRP
Reserved Air Cargo	RAC
Restricted articles	REART
Shipper	SH
Shipper's deposit	SHDP
Shipper's export declaration	SHED
Shipper's Letters of Instruction	SHLI
Through	THRU
Total	TTL
Trace and advise	TRAD
Transfer (ed) (ing); follow by date and air carrier to whom transferred, e.g., "TRFI4AA"	TRF---
Transfer Manifest	TRM
Unaccompanied baggage	UBAG
Unreserved Air Cargo	URAC
Volume (dimensional) charge	VOCH
Volume weight	VOWT
Weight	WT
Weight charge	WTCH
With livestock attendant	WIAT
Without livestock attendant	WOAT

Valuables: (Always follow with value expressed in thousands of dollars (U.S.) "D" or hundreds of pounds sterling (U.K.) "P".)

Bank Notes or Paper Currency	ORPHINGTON
Gold Coin	RHODERED
Gold Bullion	PLYMROCK
Platinum	WHITELEG
Diamonds	LEGHORN
Jewellery	WYANDOTTE
Other valuable cargo	REDCOMB

DECODING

AAREQ	Advance arrangements required
AD	Advise (ed) (ing)
ADAC	Advise acceptance
ADAR	Advise arrival

PROCEDURE FOR REQUESTING CITY CODE ASSIGNMENTS

The member airlines of the Air Transport Association of America and the International Air Transportation Association normally use three-letter city code designators when requesting space. To avoid confusion and to assure proper handling of reservations requests involving their members, the two associations participate in a program designed to preclude the assignment of a single city code to cover two or more cities. Any airline publishing its services in this Guide and serving a city which has not been assigned a code is requested to make application for a code by contacting directly the association of which it is a member. Airlines not members of ATA or IATA should make such application to the Head Office of either association, listed below.

Air Transport Association of America
1000 Connecticut Avenue N.W.
Washington 6, D. C.

International Air Transport Association
1060 University Street
Montreal 3, P. Q., Canada

UMI
